

Full Stack Developer with hands-on experience building end-to-end web applications using React.js, JavaScript, HTML5/CSS3, Python, Django, Django REST Framework, and MySQL. Skilled in developing responsive user interfaces, integrating RESTful APIs, database design, authentication and authorization, and CRUD operations across the full stack. Experienced with Git, GitHub, and GitHub Actions for CI/CD workflows and Agile development. Strong foundation in OOP and MVC architecture with a focus on clean, maintainable code.

Projects

SkillSwap – Skill Exchange Platform Live | GitHub

Jun 2026 – Jun 2026

Tech Stack: Django, Python, Django REST Framework, JavaScript, Bootstrap, SQLite

- Developed a full-stack skill exchange platform using Python, Django, and Django REST Framework.
- Implemented secure authentication, authorization, and profile management logic.
- Built RESTful APIs for skills, sessions, reviews, and user management
- Integrated session scheduling, ratings, wallet, and administrative management features.
- Used Django ORM and Git to build a scalable and maintainable application

Kisan Setu – Equipment Rental System Live | GitHub

Mar 2026 – Apr 2026

Tech Stack: Django, MySQL, HTML, CSS, JavaScript, Python

- Built a full-stack equipment rental platform for farmers and equipment providers using Django and MySQL.
- Developed CRUD operations and API endpoints for equipment listing, booking, search, and availability tracking.
- Designed the database schema and an admin dashboard for managing users, equipment listings, and bookings.
- Optimized backend logic and database queries to improve application performance
- Added search and category filters so users can quickly find available equipment by type and location.

AS-Mart – Online Grocery Shop Live | GitHub

Jan 2025 – Mar 2025

Tech Stack: Django, MySQL, HTML, CSS, JavaScript, Python

- Implemented secure authentication and server-side logic for shopping cart, checkout, and CRUD functionality.
- Developed a responsive interface using HTML, CSS, Bootstrap, and JavaScript, and customized the Django admin panel for product and order management.
- Optimized database queries to improve overall application performance.
- Added order tracking and status updates to keep customers informed from checkout through delivery

Technical Skills

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Bootstrap, Responsive Web Design

Backend: Python, Django, Django REST Framework, RESTful API Design, API Integration

Database: : MySQL, SQLite, Django ORM, Database Design, Database Optimization

Full Stack Concepts: End-to-End Development, Authentication, Authorization, CRUD Operations, MVC Architecture, OOP, SDLC

Development Practices: Debugging, Deployment

Version Control: Git, GitHub, GitLab, GitHub Actions, Docker, CI/CD

Tools: VS Code, PyCharm, MySQL Workbench, Docker desktop, Github Copilot

Soft Skills: Communication, Problem Solving, Team Collaboration, Analytical Thinking

Education

Chhatrapati Shivaji Maharaj University, Panvel

2022 – 2026

B.Tech in Computer Science

SGPA: **9.81** (8th SEM) CGPA: **7.94**

Sarvajanik Vidyamandir, Pen

2021 – 2022

HSC Class 12

Percentage: 68.50%

K.E.S English Medium Secondary School Pen

2019 – 2020

SSC Class 10

Percentage: 84.80%

Certifications

- Full Stack Development Internship – InLighnx
- Full Stack Development Course – Quastech
